Attachments: PRA - Cyrus Farivar (NBC News) - re Knightscope.pdf

Good afternoon,

The City Clerk's Office is in receipt of your Public Records Act request received via email, yesterday, October 7, 2019, regarding the following item(s):

Under the California Public Records Act, I am hereby requesting any and all documentation, correspondence, specs, legal memos, drafts, images, videos, audio, maps, and any other records or materials associated with Knightscope.

Specifically, I am interested in emails between any and all city officials and/or police officer and representatives of the company Knightscope.

See: <https://www.nbcnews.com/tech/tech-news/robocop-park-fight-how-expectations-about-robots-are-clashing-reality-n1059671>

This is to include any relevant police reports, after-action reports, memos, briefings, talking points, video and/or audio recordings, CAD logs, and datasets released internally and/or from any @hpca.gov account to any @knightscope.com account, or anyone else operating on Knightscope's behalf.

Please consider the timeline range from January 1, 2017 (or whenever the earliest such record begins) until this search request is fulfilled.

In accordance with government code section 6253(c), please allow 10 days from receipt of your request to determine whether the request, in whole or in part, seeks copies of disclosable public records in the possession of the City, we will notify you of the determination within the allowable time.

Please Note

If a request is made via email and the documents are already in pdf (electronic) at time of request, there will be no charge.

If a request is made via email and documents need to be scanned into pdf format (electronic), there will be the related copy charge.

Cost of duplication, at \$0.15 for the first page and \$0.10 for every page thereafter.

We will inform you of any cost before processing any documents responsive to your request.

Thank you,

Susan Crum
Acting Sr. Deputy City Clerk
City of Huntington Park
6550 Miles Avenue
Huntington Park, CA 90255

Hello Jorge,

I hope all is well.

I represent Knightscope. We provide autonomous robots and are helping companies to prevent crime and theft, improve safety, and support policy enforcement.

Do you have availability tomorrow at 9:30 AM or Friday at 10:30 AM for a call?

Thank you,

Jason M. Gonzalez
Director Client Development
Knightscope, Inc.

Hi Jason —

Have answers to some of your questions:

- * Robot name — going with “HP Robo Cop”
- * Wrap — police uniform theme with HPPD’s badge
- * Deployment contact — Daniel is cc’d here
- * Knightscope software — Ive also included our Chief. He can assist in identifying that contact.

Ill sit down with Daniel to go over some of the proposed routes and mapping, but in the meantime, it is ok to begin coordinating with him.

Let me know if you have any other questions.

Thank you.

Hi Jason —

Have answers to some of your questions:

- * Robot name — going with “HP Robo Cop”
- * Wrap — police uniform theme with HPPD’s badge
- * Deployment contact — Daniel is cc’d here
- * Knightscope software — Ive also included our Chief. He can assist in identifying that contact.

Ill sit down with Daniel to go over some of the proposed routes and mapping, but in the meantime, it is ok to begin coordinating with him.

Let me know if you have any other questions.

Thank you.

Good morning Rick,

Thank you again for helping us get started on deploying the robot. As we discussed on our call yesterday, below are a few items we'll need your team's help with.

Map – Outline the patrol routes and 2 charge pad locations with 110V power.
Wrap – We need either an Illustrator (.ai), .eps or a vector based .pdf of the logo you'd like to use with the city seal.
Robot Name – This is optional, but we can include the robots official name on the wrap if the city wants to.
Deployment Contact – Please provide the contact info for Daniel Hernandez.
Knightscope Software – Please provide the contact info for the person at the PD that will be using our software and handling alerts from the robot.

Please let me know if you have any questions.

Thanks again,

Good Afternoon Everyone,

I wanted to let you all know that the audio for HPRoboCop has been repaired. I just checked in on it and the patrol sound is active and broadcasts are transmitting.

If there is anything you see that needs to be addressed, please feel free to let me know.

Thanks!

Manny,

Good afternoon and I hope you are doing great.

I wanted to let you know that we have a service call put in for a technician to come out and perform routine service on HP RoboCop.

Nothing major, but we have it parked for now while the technician is being dispatched. I will give you a sitrep as soon as the service is completed.

I am also getting all the quote information for you from our last conversation.

Let me know if there is anything else I can help with Sir.

Thanks,

Chris

Hello Karina,

In case you missed it last month, here's some recent news coverage of our K5 autonomous robot successfully deployed for the City of Huntington Park Police Department. It was also featured on KABC, KNBC's Today Show and several other news stations across the country.

Are you available for a call on Monday at 1:30 PM or Tuesday at 9:00 AM?

Best regards,
Jason M. Gonzalez

RoboCop Reporting For Duty In Huntington Park

HUNTINGTON PARK (CBSLA) — The Huntington Park City Council Tuesday got its first look at the newest member of the city's police force — a robot. HP RoboCop will be used to keep an electronic eye on public areas when human police officers are not around. The robot is designed for outside use and comes equipped with 360-degree high-definition cameras that can feed live video to the department and also record footage for subsequent viewing. Police say the blue-and-white robot can provide the department with data to help lower crime, help patrol areas that officers might not have time to patrol and offer help with all kinds of

investigations. The robot has been helping patrol a park in the city for several weeks since its preview at a 5K run last month. HP RoboCop even has its own Twitter account: @HPRoboCop

April 04, 2019 12:23 PM Eastern Daylight Time

MOUNTAIN VIEW, Calif.--
(BUSINESS WIRE)--
[Knightscope, Inc.](#), a developer of advanced physical security technologies focused on enhancing U.S. security operations, announced today that facial recognition software utilizing deep learning to detect, analyze and compare faces is now available, in beta format, on its K1 security robot platform to

help enhance Workplace Violence Prevention (WVP) programs for companies across the United States.

“According to OSHA, 58% of senior managers have been threatened by an employee, and about 2 million employees report some type of workplace violence each year in the US,” said Stacy Stephens, former police officer, EVP and chief client officer at Knightscope. “Knightscope is providing its clients with a way to ingest images of known threats and persons of interest to provide an additional layer of protection for the places we visit and work.”

Knightscope has been testing its beta release of facial recognition with existing client, Pechanga Resort Casino in Temecula, Calif. “Knightscope’s enhanced capabilities provide Pechanga with added levels of security that were not possible before,” said Robert Krauss, Vice President of Public Safety at Pechanga Resort Casino. “We began working with Knightscope and their security robots over a year ago. Pechanga knew the technology would be another tool for the resort-casino’s 350-person public safety team in maintaining wellbeing for our guests and team members.”

For more information on Knightscope or to request a demo to see how security robots will help enhance your guarding needs, go to www.knightscope.com.

Hi Susan,

No problem, I'll have these added to the mock up and send them over for your review.

Do you know which blue is preferred on the mock up we sent? The lighter or darker blue?

Thanks,

Jason M. Gonzalez

Good morning Monce,

The attached may help you, you'll just need to omit the paragraph about the robot not calling police, since in this case it does. Let me know if you have any questions or need anything else.

Thanks,

Subject: HP RoboCop for our City Newsletter

Hi Jason,

I am working on the city newsletter that we sent out to all of our residents. I would like to inform the community a little more about K5. Do you already have a template I can work with, or that you have sent out to other cities/companies?

Thanks for your help. If possible to get this by the end of this week. Thanks

Mayor Macias I see that as well and we will address it.

Unfortunately on the last incident we did not have video. The robot was shut down at the time due to the charging issue and keeping it on would have resulted in damage to the internal components. This was something that we identified to be corrected in incidents and we are developing a set of procedures to mitigate a robot in the open with no "defenses".

Thank you Christopher.

Two things.

One, I do see the new update covered HpRoboCop's printed name, if we can also fix that on top of the wrap would appreciate it. Two, has the video of the last tampering of HpRoboCop been sent to Chief Lozano?

Thank you

Subject: HPRoboCop Updated

Good Evening Everyone!

I am happy to announce that the new charging upgrade has been installed on HpRoboCop! Our engineer has checked everything over and it is looking good. It is currently charging to get back to full power and then HPRoboCop will be back to full patrol.

Thank You All for working with us through this new change and we are happy to bring the newest Knightscope function to your robot.

Please let me know if you have any questions and I am happy to assist any way I can.

Thanks!

Subject: National Night Out - HP Robocop

Hello Chris,

I just left you a message and I hope you are able to help us out. We're having our annual National Night Out event here at the police department tomorrow between 5pm and 10pm (PST). I was hoping to find a way to have the robot here at our event. I'm not sure if you're able to help us out with this but if you are, it would be very helpful!

Thanks in advance!

PS I will be in tomorrow around 8am (PST).

Thanks again!

Joe Settles | Sergeant

Hello Chris;

Regarding the badge image, Sergeant Settles is going to explore a couple of less costly possibilities.

Sergeant Settles will get back to you.

Thanks –

Subject: Badge Image

Cosme,

I just met with our design team working on the badge image. The image provided will take them about 24 hours to recreate into a high resolution image and is quite costly. They asked if you had a photographer with the city that was able to take a high resolution picture of your badge and then we can make the design changes to add the badge number. If this is not possible, we could possibly send our folks out to take the images.

Let me know what works best and we will make it happen.

Thanks Cosme,

Chris

Ricardo,

Good evening Ricardo. I wanted to reach out and see if you were available for a call this week to discuss the deployment and for myself and Tom Miller to check in and see how things are going.

Please let me know if you and your team will be available this week and a good time for you all.

Thanks,

Chris

Good morning Councilman Pineda,

Thank you again for the kind words of support for HP RoboCop at Tuesday evening's meeting! It's been great to see the media coverage continue to grow, including national coverage on the Today Show. <https://www.today.com/video/-robocop-makes-debut-at-california-police-department-62305349910>

I didn't get a chance to speak with you after the meeting about Santa Ana. I'd be more than happy to reach out to them if you can provide me with a contact. I know you have a very large network, so if there's anyone else you feel would be interested please let me know.

Best regards,

Hello Jorge,

You're invited to come see our security robots in action. We've been expanding our footprint in the Southern California area and now have several clients with robots busy at work. I'll be scheduling on-site appointments for next week, on Tuesday and Wednesday. Please let me know if you're interested and we can schedule a time to meet our robot in person.

Thank you,

Jason M. Gonzalez
